

Economic Analyst

We are currently seeking an Economic Analyst to support our growing SmarterLocalGov.com team of economic development professionals. The candidate will primarily serve as a research analyst for a variety of projects, including real estate and industry market analysis, feasibility studies, economic and fiscal impact analysis, and economic and development strategies. Other responsibilities will include grant writing and supporting the management of client-administered programs.

Minimum qualifications include an undergraduate degree in economics, finance, policy analysis, urban planning, public administration, or other related field (Masters preferred, but not required) with strong analytic skills, professional-level competencies in Excel, and excellent research, writing and communication competencies.
